I Don't Mean To Be Boastful

about it but I think I do the best optical work in this part of the world. Nobody I know of is more particular. Nobody takes more pains. Nobody's customers get more attention. No glasses can go out of this store unless everything about them is right. I'm just as particular about fitting you right, and giving you mountings that are right, as you are yourself, and no sale is complete unless you are satisfied. I make no charge for testing eyes and if you don't need glasses you should be sure about it. When you want perfect glasses, at square deal prices, come to

Miller

FATALLY POISONED

Failure to throw off through the kidneys and urinary tract the poisons which slowly collect in the body often proves fatal. If urinary ailments result from clinging our feet and ankles, because of some painful or some disease you have contracted, you are in positive danger.

The kidneys and bladder are the most essential organs in your body. If they become weak or inactive, your person should also always thrive, the force and health. If they become clogged and congested, those vital organs become a thousand fold more dangerous than any other sick condition in human body. Kidney troubles are responsible for more sufferings than any other ailment. Kidney troubles are responsible for more deaths than any other ailment
