Valuable Ore Available

Phoenix, who made a survey of the company's claims in 1931, reported then that approximately 250,000 to 300,000 tons of ore, worth at least $3,000,000, was available. He added Tuesday, however, that "it is another better on lime ever on" and

Peterson, of Tacoma, is secretary.

Fuller declared the company has absolutely no stock for sale and that there is $150,000 in escrow at present which calls for development work on the claims. As soon as machinery and equipment can be moved in operations will be started, he added, and about 500 men will be employed. Full development of Silver Mountain might result

doctor can bury his mistakes under six feet of ground. This is liable to be a monument to us."

Harry Troutman, WERA engineer, recommended that Phoenix head the survey party as representative of both the WERA and the county.

Fuller asserted that, eventually,
