

Tipperary Beer

THE REAL THING

Being Temperate

Doesn't mean denying yourself absolutely something that you enjoy and in whose moderate use there is no harm.

Temperance, to use a plain definition, is the exercising of good common sense in eating and drinking.

There are millions of temperate people who drink Beer and are benefited by its use.

TIPPERARY BEER

Contains only a slight percentage of alcohol, but it has lots of barley malt—a food—and hops—a tonic. It is a wholesome drink and a temperance drink.

DALLAS BREWERY

Special attention given to the family trade.
