

BIG OUTPUT BY TANANA MINES

Clean-Up Will Surpass All the
Records of Past
Years.

WATER IS PLENTIFUL NOW.

Millions of Dollars Hung Up in
Transit by Shallowness
of the Yukon.

Special Dispatch to the "Chronicle." SEATTLE (Wash.), June 15.—The spring clean-up in the Tanana district will exceed all expectations, says a letter that has been received here from Falcon Joslyn, president of the Tanana Railroad. Last year what is technically known as the Tanana country produced approximately \$5,000,000 in gold, and Joslyn estimated that the same country would turn out about \$12,000,000 this year. Surrounding districts in the same region, Joslyn estimated, would bring the total up to \$18,000,000. He believes now that that estimate will be exceeded.

Delays in the clean-up have occurred because of the backward season and a scarcity of water. The dunes are now all working and the operators have been surprised at the richness of some of the ground worked. The water supply, Joslyn says, is now ample. Operators who are interested in the Tanana country declare that the labor situation has improved materially. More men can be used, but the situation is in better shape than it was during the winter.

The steamship City of Seattle, which arrived this morning from Southwestern Alaska, brought the first shipment of gold from Fairbanks to reach Seattle by the Skagway route. In all, she brought about \$1,000,000, the greater part of which was consigned to Decker, Hutton & Co., bankers of this city. Another large lot was \$500,000, consigned to the Washington Trust Company, from the Washington Alaska Bank, its branch at Fairbanks. The gold came up the Yukon on the Prospector, which had a difficult trip, owing to the fact that the river is the lowest in years, and several times it was necessary for the Prospector to be pulled up by the shore and he pulled over bars in the river. Other boats are held up below White Horse by the wet water, and it is estimated several million dollars in gold is being up on the upper Yukon.

CARLSON BACK TO FACE MUSIC

Solvency of Bank Depends
Upon Success of Realty
Enterprise.

Special Dispatch to the "Chronicle." LOS ANGELES, June 15.—Claiming that he is the victim of what he calls a "concocted conspiracy," but making no mention of having any money with which to pay the depositors, William H. Carlson, president of the Consolidated Bank, returned to-day. He was met at the depot by his wife in an automobile. The banker showed no signs of worry and generally exclaimed: "Well, I'm here, you see," to the reporters and depositors who crowded around him.

There never was the slightest excuse for the Bank Commissioners taking possession of my bank, and I'm going to prove it," he added. "As for the real estate business, I have sold \$500,000 worth of lots and the whole enterprise is solvent."

Now that Carlson has returned, action looking toward a receivership has been postponed to see what offers he has to make. Carlson says the solvency of the bank depends upon the successful carrying out of the real estate enterprise.

TO HANDLE BERRIES OF SEBASTOPOL DISTRICT.

Committee of Growers Appointed to
Attempt to Secure Better
Prices.

SANTA ROSA, June 15.—John J. Alvey, William Hottel and Frank Plag, well-known berry-growers of the Sebastopol district, have been appointed a committee to handle the proposed pooling of the berry crop there. Sebastopol is the largest berry section of the State. Offers are being sought for the whole crop by the committee and considerable encouragement is being given them, but the bidders have not yet approached the figures the growers desire.

A controlling interest in the entire crop is in the hands of the committee, and with this they believe they can swing bidders into line. The California Fruit Growers' Association, which has been handling the crop in previous years, decided they would keep out of their market this season. Their decision to buy left the growers in a tight place until they organized, and now they claim to have the upper hand.

INJURED FINGER COSTS AGED MAN HIS LIFE.

Unable to Handle Reins, He is
Thrown Under Wagon and
Killed.

REDDING, June 15.—Because Edward Gibson mangled his finger yesterday morning in Kennet, he lost his life in the afternoon. He was driving a wagon, when he stopped at his home to have his finger dressed, leaving the horses at the front gate. When he returned his fingers were so clumsy with their wrappings that he could not pick up the lines as the team started to run down the hill. He was thrown out of the wagon and fell beneath the horses. The wagon passed over him and crushed his chest. He was dead when his sister, who saw the accident, reached his side. Gibson was 75 years old and an old soldier in the Confederate Army.

PAY INSPECTOR RYAN ON WAITING ORDERS.

VALLERO, June 15.—It is reported at the yard that Pay Inspector Eugene D. Ryan, formerly in charge of the Navy pay office at Seattle, but now post paymaster of the Pacific fleet, with headquarters on board the cruiser West Virginia, has been ordered home to await orders. It is further stated that Pay Inspector H. A. Dent will succeed him. Pay Inspector Dent is now attached to the flagship Connecticut as the post paymaster of the Atlantic fleet.

SAYS HUSBAND SEEKS HER LIFE

Special Dispatch to the "Chronicle." LOS ANGELES, June 15.—Alleging that her husband has been slowly poisoning her, Mrs. Louisa Eddy-Schier is seeking to divorce Rev. Leopold Schier. She has accumulated nearly \$200,000 by speculation in real estate and mines and believes Schier intended to kill her so as to get the property. She states that Schier was formerly a

minister of the Lutheran Church in San Francisco and Seattle, where he lived with different women at various times and generally acted the gay lothario. She declares he ran away from Seattle with the wife of a man named Fox, but left her and came to Los Angeles, where he met Mrs. Eddy and induced her to become Mrs. Schier. When she found out about Mrs. Fox a few weeks ago Schier, she asserts, left town. She says the man's real name is Elchier and that he used to boast of being a friend of Johann Hoch, the Chicago murderer. She is sure she only narrowly escaped being treated by Schier as Hoch treated his many wives.

HAD PLANS TO MURDER MANY

STOCKTON, June 15.—The prosecution sprang a big sensation in the Helm murder trial to-day when Dick Kaloostian, an Armenian, who was a cellmate with William Helm for four months, testified, after strenuous objections by the defendants' attorneys, that William Helm, one of the accused, had, after his first conviction, confessed to him that he had shot Hayes and his wife.

RAWHIDE BANDITS ARE CAPTURED

The witness further declared that Helm had plotted to kill Judge Church, District Attorney Church, Constable Mason and whatever constable might convey him to Stockton for the second trial, a change of venue having been secured. Kaloostian was to procure the gun with which Helm was to carry out the plans, which, if successfully carried out, were to be followed by the killing of a witness who saw Helm with the shotgun, all for revenge, and later the robbery of the Gouter Bank. Helm exhibited a knife and threatened Kaloostian with death if he "poached." Kaloostian waited his opportunity and when Helm was in his cell, managed to convey the story to the officers. Cross-examination aided the story.

RAWHIDE BANDITS ARE CAPTURED

RENO (Nev.), June 15.—Suspected of having robbed the passengers on the Rawhide-Fallon stage of \$1000 in gems and small sums of money, two men, giving their names as Bliss and Walters, were arrested to-day and placed in the Esmeralda County Branch Jail. The suspected holdup men were tracked across the desert from the scene of the holdup by Special Agent Kane of the Wells-Fargo Express Company.

When arrested neither of the suspects had any money or diamonds in his possession, but Kane believes that they cashed the valuables before going far from the scene of the crime. When the Rawhide stage was robbed the Wells-Fargo messenger started at once on foot for two days and found that they were heading for Rawhide, intending to enter the camp from the east. Kane approached them early this morning as they trudged across the sands, and by a ruse made them believe he was a prospector. Their arrest was easy when the suspects were covered with a revolver.

Why the Doctor Gives His Patients Schlitz Beer

Nurse: "Why is it, Doctor, that you use Beer instead of malt extract?"

Doctor: "Schlitz Beer, Nurse. Because I have found that my patients assimilate it better and that there are no ill effects. Have you found anyone under your charge who did not benefit from it?"

Nurse: "No, Doctor. While some patients at the Hospital where I was before were sickened by malt extract, I have never noticed such result from Schlitz Beer here. Even those just recovering from an operation retain Schlitz Beer. Often it is the only food they can take."

Doctor: "It is the best nourishment. The care given its brewing, even to cooling it in filtered air, makes Schlitz Beer so pure that no harm can come from it. Schlitz Beer, too, has a richness in food value, greater than I have found in any other beer, due to the barley, hops and yeast used."

Nurse: "Why is it, Doctor, Schlitz never causes biliousness?"

Doctor: "Because Schlitz is thoroughly aged. Fermentation is completed at the brewery, not in the patient's stomach. The final step after bottling and sealing is the sterilization through which it is impossible for any germ to exist."

Nurse: "My patients seem to enjoy the taste of Schlitz."

Doctor: "Yes. Even old world brewmasters have complimented Schlitz on its full rich flavor, proving the goodness of all the materials."

Nurse: "If Schlitz Beer is such a benefit to the sick it ought to be good for the well."

Doctor: "It is. And if those who are well would drink more of it we would have fewer anaemic patients. We would have less stomach trouble and nerve disorder. In every way the use of Schlitz promotes health."

Schlitz

Ask for the Brewery Bottling.
Common Beer is sometimes substituted for Schlitz.
To avoid being imposed upon, see that the cork or crown is
branded Schlitz.
