

WALDBRAU

The Beer That's Pure And That Nourishes and Invigorates

Waldbrau must be PURE because it is made absolutely clean and every possible care is bestowed upon its manufacture.

It is a NUTRITIOUS Beer because our special process of malting extracts from the barley grain all of its food properties.

It is INVIGORATING because the best hops grown are used, making it strongly tonical and safely nervine, and as it contains only a little more than 3% of alcohol, it forms an IDEAL HOME BEVERAGE which is extremely healthful.
