Spanish Property Confiscated

Victims Ordered From Tepic

Judiciary and Huerta Officials to Be Executed by Order of Rebel General Obregon, Is Report

By ALBERT J. PORTER.

Staff Correspondent of the "Chronicle" on board the Hospital Ship California at Mazatlan.

MAZATLAN, June 5.—By telegraph via San Diego).—Constitutionalists are now occupying Tepic, the capital of the mountain state of Nayarit, according to advices received by Admiral Howard. After being stripped of their possessions the Spaniards were ordered to leave the city. It is believed the confiscation was made on orders issued by General Blanco, who had assumed all the powers which captured the town after a bloody battle in which a thousand perished.

OBREGON ORDERS HUERTA MEN EXECUTED.

Tepic, which is the capital of the territory of Tepic, is under the control of General Obregon, commander of the northwestern division of the rebel army. Overturning the judiciary of the state, he has ordered the execution of the Tepic judiciary and certain public officials of the Huerta regime. Immediately after the capture of the town squads of Federal officers and soldiers were executed in the public square. Many others committed suicide on the lonely mountain grounds, which the rebels turned into a shambles. The reason for Obregon's order is unknown and attempts to conceal it have been given up by officers of the fleet.

MAZATLAN TO BE LEFT UNDEFENDED.

The Mazatlan situation was rendered serious today by what is believed to be the first of a series of desertions which will leave the town undefended. A Federal captain with the staff remaining officers and men of his company, numbering about 200, deserted to the rebel ranks. Evidences that other officers of the Federal garrison are planning a similar coup have been observed today.

Shortly after the desertion of the company of Federals the rebels opened artillery fire on the town. The big field guns were trained seaward and shells into the section of the town where the Federal troops are quartered. Two officers of the Federal army were killed by the fire.

The rebel battery resumed firing with the third salvo and the siege settled down again to grim waiting.

MEDIATORS MAP PLANS.

NOGALES, Ariz. (Wet.), June 5.—Mediation between the United States and Mexico, which General Carranza's answer would be on the basis of Constitutionalist recognition here, the mediators and the Constitutionalist agents will meet in conference tomorrow to discuss the details of the working out details of the proposed plan.

There were no conferences, but the mediators spent the day in their apartments at the American side, receiving delegations from the Constitutionalist commissioners with whom they conferred yesterday, sending messages to them about individuals mentioned in the agreement and receiving answers.

CARRANZA'S ANSWER DELAYED.

EL PASO (Tex.), June 5.—It probably will be Monday before Eliseo Arredondo, Carranza commissioner to the mediation conference at Niagara Falls, can be informed by wireless of the action here that Carranza will accept the mediation proposals as presented by the mediators. The Mexican wireless has been out of order since Wednesday.

HUERTA IS DISAPPROVED.

The attempt of President Huerta to dictate to the people of Nogales, Pacific coast terminus of the Sonora railroad, in naming their governor, was disapproved by the United States government, it was learned today. The Huerta agent who attempted to dictate to the people of Nogales was ordered to leave the city by the United States Department and the order was carried out. The Huerta agent was the Mexican ambassador who represented Huerta at the Niagara Falls conference. He protested against the order.

Constitutionalists in Washington declared that the action of the United States in ordering the Huerta agent to Mexican ports, and was a distinct victory for the rebel government of a republic of the Huerta type.

MOUNT MEXICO PEAKS.

Mount Nevada swelled to eighteen times its normal size and threatened the city of Colima with terrible destruction, according to reports received here today. Refugees from the city of Colima, which is situated at the foot of the mountain, declared that a deluge of lava was pouring down the sides of the mountain.

HUERTA IS HOPEFUL.

WASHINGTON, June 5.—Persons who spoke to President Huerta today are of the opinion that he is more hopeful of the peace negotiations at Niagara Falls than he has been since the conference began. He is confident that the end of the difficulty was near and that peace would be established on the basis of diplomatic relations with the United States. Huerta's optimistic attitude was reported to the state department by officials of the Mexican embassy. Secretary of Foreign Affairs and Chief Justice Garcia Granados, who is in the cabinet by proxy, is also hopeful.

VILLA CALLS HUERTA NAMES.

Secures Communication With Dictator by Tapping Federal Wires.

VERA CRUZ, June 5.—President Huerta is now in daily communication with General Francisco Villa, according to a report brought here by a refugee, and the character of their communications is somewhat entertaining.

General Villa, according to the report, sends one of his staff officers to meet another of the Federal lines. He furnishes a wire and tells Huerta to tap the wire, which Villa called his enemy intended to use. Huerta does so, and after the departure from the capital, Villa receives a message from Huerta. Villa replies, calling Huerta names and telling him to keep off the wire. Huerta responds in kind.

Finally Villa requested Huerta to meet him in person, and he is now in the capital.

President Huerta, according to the story, appreciating the grim humor of Villa's methods, gave orders that the wireless messages should not be withheld from Villa, and the correspondence has been carried on for some time since the war began. Villa, according to the refugee, has not yet notified Huerta of the fact. Though the latter has been aware of it for some time, he permits the messages to be sent to Villa, and the Mexican leader receives daily reports of those messages as sent by Huerta's operators, but not as received by the rebel leader.

The increased requirements will make it more difficult for teachers to secure positions in California high schools than it is almost any state in the Union.

Heretofore the qualifications for certification have been four years of university training, with a year of private pedagogical study, and most all the teachers in the state have been elected on this basis.

The required number of units under the new scale will be fifteen, and candidates for high school positions will be required to take courses in class room management, child study and specialize in the studies they propose to teach.
