

Dead at Age of 70

Professor Alberta Porta, astronomer and earthquake authority, formerly associated with Father Richard at Santa Clara University, died yesterday at his home, 1922

Mondovi, Italy, and came to California nearly a quarter of a century ago. He was 70 years old at the time of his death. He was noted in scientific circles for his earthquake predictions.

Tanlac treatment I suffered with indigestion and constipation, and got so run down and worn out that I was just dead on my feet, so to speak. My food disagreed with me, never seemed to do me a particle of good, and the gas bloated me up after eating until it was about all

of the past. Seeing that a world of good Tanlac did me, I feel I have good reasons to endorse it, and will always recommend it as the best tonic in the world." Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.—Adv.

it's here!

Good news for thirsty folks! Our Brewmaster has done the trick! He has discovered how to keep that "old taste" in! And that peculiar "after taste" out! And that "watery" taste isn't there any more—our *New Process* fixed that also!

Of course—we can't call it beer—that would be unlawful—but neither will we call it "near"—because that would be unfair to it. It's not "near," it has arrived! Wieland's is "there" now—there with the old taste—with new goodness and nutrition.

Our *New Process* gives you a delicious, heady brew with the good, old-fashioned smack in every swallow. Old-timers say it's better than the real old kind—say they're satisfied now—that they've got what they've been waiting for. If you hanker for the "old taste"—Wieland's will satisfy it.

Our *New Process* does the trick. Order yours today from your neighborhood dealer.

—our *New Process* does the trick!
