To Make This Finer, Delicious Loaf

**We Began As You Yourself
Would Begin--**

FIRST OF ALL the best possible ingredients—fine flour, pure
milk, yeast rich in vitamins, the best sugar, salt, shortening.

That is what you would want if you were starting to make a finer
loaf of bread than ever came out of your oven.

And that is what we gathered together when we started to make
LUXURY bread for our customers. The loaf that was to be finer,
more wholesome, more satisfying.

We test our ingredients from flour to salt, and the result is—

LUXURY BREAD

Delicate in texture, yet so evenly blended that its slices do not
crumble when you butter them.

Rich in flavor, for the combination of materials is such that the full
sweet taste of the wheat is brought out.

High in nutritive value, for it is made only of materials whose food
elements have been carefully determined.

Look for the
NATIONAL
Trade Mark

They are not only the recognized standard of quality
everywhere, but being made by the most skillful work-
men from the best materials, they have a satisfactory
sense of security, and their artistic outlines relieve death
of much of its sting.

WE SELL ONLY THROUGH FUNERAL DIRECTORS

But the Public is Invited to Visit Our Factory and Showrooms at any Time

BUT

IF YOU LIKE
REAL 4% BEER
SAY

Berghoff

REFRESHING—with a sparkle that
says "Have Another"—that's typical
of BERGHOFF.

When you're eating, after the game, in
fact, most any time that calls for a cool
drink is the time you'll call for more.

JUST IMAGINE

That real hot day a bottle of BERG-
HOFF—Swiss cheese and rye bread—
oh my! What is better?
