FEMALE

Bookkeeper, hotel ..... Open
Buyer, dresses ..... (wk.) $50
Distributors, R. T. W., exp. ..... Open
Employment counselor, (4) ..... (wk.) $25
F. C. bookkeeper-steno., A1, ... (wk.) $25
Saleslad(ies), dress shop ..... Open
Salesmen (2), coats com. & (wk.) $25
Secretary-steno., adv. exp., A1, (wk.) $25
Social service positions ..... Open
Steno.-correspondent, thorough exp. Open

Other positions are listed today. Turn to the Help Wanted Section and consult it now. The valuable employer-contacts of the agencies advertising in The Times are of great assistance to the employment seeker.

LEADERS TO STUDY HOUSING PROGRAM

1,000 Spokesmen of Business to Confer Here Tomorrow on Government's Plans.

LOANS TO BE EXPLAINED

Federal Officials to Speak on Aid Available to Owners for Modernization Work.

A housing conference, in which 1,000 manufacturers, bankers, building industrialists, architects and representatives of labor are expected to participate, will be held tomorrow in the Hotel Roosevelt. The meeting is scheduled to start at 10 o'clock in the morning and will be addressed by Ward M. Canaday, director of public relations of the Federal Housing Administration; Albert L. Deane, Deputy Administrator, and Roger Steffan, head of the modernization section division.

The meeting is patterned after the recent Washington conferences, at which business and other interests were made familiar with the details of the Better Housing Program of the Federal Housing Administration. Benjamin Brewster Sanuel Levy is honorary chairman of the committee sponsoring the conference. Peter Grimm is the chairman.

The meeting will deal specifically with the first section of the National Housing Act providing for loans of $200 to $2,000 running from one to five years, and repayable in monthly instalments for repairing and modernizing existing buildings. These loans, which will be insured by the FHA, are made without collateral, mortgage or endorser, the test being the character of the applicant and his ability to meet payments on his loan out of wages or other income.

In addition to Messrs. Levy and Grimm the committee sponsoring the meeting includes in its membership William Henry Barnum, president Continental Mortgage Company; Walter H. Bennett, president Emigrant Industrial Savings Bank; Lewis H. Brown, president Johns-Manville Corporation; W. Gibson Carey Jr., president Yale & Towne Manufacturing Company; George M. Cohan, 152 West Forty-second Street; Louis K. Comstock, president Merchants Association; G. Richard Dana, 12 East Forty-first Street; Joseph P. Day, president Joseph P. Day, Inc.; Lawrence B. Elliman, president Pease & Elliman, Inc.; Harvey D. Gibson, president Manufacturers Trust Company; A. R. Hensle, vice president American Radiator Company, and John P. Kane, chairman General Builders Supply Corporation.

Also Clarence L. Law, president Electrical Association of New York, Inc.; Mrs. Malcolm Parker Mackay, president New York City Federation of Women's Clubs; Michael J. Merkin, president M. J. Merkin Paint Company, Inc.; Walter J. Moore, president Railroad Cooperative Building and Loan Association; Arthur J. Morris, president Morris Plan Industrial Bank; Herbert R. Murdock, president New York Building Congress; Jeremiah L. Murphy, National Association of Master Plumbers; John E. Otterson, president Electrical Research Products Corporation; Elliot S. Phillips, president Devoe & Raynolds Company; Conrad N. Pitcher, president New York Lumber Trade Association; Gr. Uff. Generoso Pope, president Colonial Sand and Stone Company; Louis S. Posner, 37 Wall Street; R. S. Reynolds, president Reynolds Paint Company; David Sarnoff, president Radio Corporation of America; Stephen Voorhees and Grover Whalen, president Advertising Club of New York.

TWO ARMY OFFICERS DROWNED IN HAWAII

Wife of One Also a Victim of Huge Wave Which Engulfs Them While Fishing.

HONOLULU, Oct. 14 (AP).—Engulfed by a huge wave, two army officers and a woman drowned while fishing at Waimea, forty miles from here, and the bodies of two of the victims had not been recovered today.

The victims were Lieutenant John W. Stribling, 27, of Wheeler Field, a native of Alabama; his wife, and Lieutenant William F. Stevenson, 30, of Schofield Barracks, a native of South Carolina. Mrs. Stevenson was saved.

The tragedy occurred late Saturday, when a huge wave dragged them from a reef. Stribling's body was recovered, but those of the two officers have not been found. Lieutenants Stribling and Stevenson were classmates at West Point.

SAYS INFLATION IS ON.

Schall Charges $150,000,000 Greenbacks Have Been Printed.

Special to THE NEW YORK TIMES.

WASHINGTON, Oct. 14.—Currency inflation is now under way in this country, despite denials from the administration, Senator Schall, Republican, of Minnesota, charged in a statement here tonight. He asserted that new greenbacks to the value of $150,000,000 had left the Government printing presses and were finding their way into circulation.

"Campaign doles to farmers, in an effort to capture their votes at the November election, are utilizing a vast sum," he said, "but the printing presses are capable of great expansion and if they fail to keep up with the political demand other presses can be installed.

"While it may be good politics to print all the money you need to bring an election successfully, it is not a healthy thing for the country. As soon as election is over, prices will skyrocket and the farmer who thinks he is getting a big price for his apples and hogs from the government will soon find the money he receives worth only the paper it is printed on.

"If all the money necessary for the Roosevelt administration to capture the coming election is printed and put out before election, by the first of the year the farmer may find flour at $20 a barrel and steak at a dollar a pound."

DR. NOBLE'S HOME ROBBED

Maid at Summer Estate and Man Accused in $10,000 Thefts.

NARRAGANSETT, R. I., Oct. 14 (AP).—Charged with theft of almost 500 articles valued at $10,000 from Casa Nostra, the Summer home of Dr. Eugene A. Noble, New York educator and organist, Agnes Barcomb, 27 years old, a former maid at the Noble home, will be arraigned tomorrow.

William Brooks, of Thornton, will be charged with receiving stolen goods, the police said.

Police Chief Frank Smith said that the thefts were noticed by Mrs. Noble when she unpacked in New York early this month and that 482 articles had been recovered, ranging from clothing to household furnishings and rare linen.

The chief said that Miss Barcomb admitted the thefts, saying that she had given the articles to Brooks on visits to her at the Noble home.

Weirton Trial Resumes Today.

WILMINGTON, Oct. 14 (AP).—With about twenty of its witnesses still waiting to be heard, the government tomorrow renews its efforts to enjoin the Weirton Steel Company from taking part in its employes' selection of collective bargaining representatives. Government attorneys may not be able to complete their case this week, because the Federal court will sit for the hearing only four days, an arrangement which was worked out among counsel for the litigants and Judge John N. Nields.

BIG REGISTRATION BLOW TO TAMMANY

By JAMES A. HAGERTY.

Continued From Page One.

istration spells a sweeping victory for the Governor, Lieut. Gov. Bray, Senator Copeland and the rest of the State ticket."

"I have made a careful examination of the registration figures throughout the city," said Grover A. Whalen, chairman of the citizens' committee for the election of Fiorello H. LaGuardia, "and I am satisfied that they clearly indicate that the Democratic party will have a great victory on Nov. 6. The registration assures the election of Herbert H. Lehman for Governor and Frank J. Taylor for Controller."

Fusion Forces Encouraged.

T. A. Hirschmann, chairman of the McGoldrick campaign committee, expressed even greater certainty that the registration figures indicated the election of his candidate.

"The final results of the registration are, of course, most gratifying to those who favor a continuation of decent government in New York City," Mr. Hirschmann said. "The fact that nearly 2,000,000 votes registered in what is generally regarded as an off year is an unmistakable sign that the independent, thoughtful citizens of this city have not lost interest in the fight for good government which was so successful last Fall.

"The Fusion forces bent every effort to get out a large registration, and reports from our workers in all parts of the city have indicated a responsiveness that has been most stimulating.

"On the other hand, an analysis of the figures by districts shows that in the normally heavily Democratic districts the Tammany workers experienced great difficulty in getting their people out to register. The reason for this apathy among the Democratic organization voters has been partly assigned to the bitter factional disputes which have torn apart the solid machine which in years past has always won easily for Tammany.

"But in addition to that, it is clearly apparent that independent Democrats, encouraged by their victory last year and by the amazing showing they made in this year's primary, have determined to continue to assert themselves. Supporters of Controller McGoldrick and Mayor LaGuardia, delighted as they were with the results of the primaries, are even more heartened by the splendid showing which independent voters made in registration week.

"The reports to us from the five Republican county organizations, all of which are loyally supporting Controller McGoldrick, indicate that they were much more successful than their Democratic opponents in getting their followers to the registration booths.

"This is highly important, because without Republican support the independent Democrats would waste their strength and Fusion would be but a futile gesture."

Both Parties Have Troubles.

The claim that the Republican election district workers were much more successful than the Democratic workers in getting members of their party to the registration booths was not confirmed by some of the Republican leaders.

A peculiar feature of the present campaign is that both the Republican and Democratic organizations in New York City have many workers who are either rebellious or apathetic. Republican election workers in many districts are reported because of failure to obtain more patronage from the LaGuardia administration and are lukewarm in their support of Mr. McGoldrick or hostile for that reason.

In Tammany and the Democratic organizations in the other counties of the city, factional difficulties have not been eliminated by the election of James J. Dooling and the other county leaderships set up by Postmaster General James A. Farley, and there is a strong insurgent movement in the Bronx against the leadership of Secretary of State Edward J. Flynn, ally of Mr. Farley.

Examination of the registration figures by boroughs and by Assembly districts showed that the loss of registrants is pretty evenly distributed, changes in population being taken into account.

The losses in registration by boroughs from last year's registration were as follows: Manhattan, 87,965; the Bronx, 65,663; Brooklyn, 104,953; Queens, 72,786; Richmond, 8,896.

MAYOR'S BUDGET IS HELD UNSOUND

Merchants Criticize Items for $25,000,000 Dependent on Legislative Action.

CITY'S ECONOMIES PRAISED

But Association Asks Further Savings, Including Pay Cuts, to Relieve Taxpayers.

The LaGuardia budget for 1935 is an improvement, but it merely halts the increase in municipal expenditures, gives no positive relief to the taxpayers and is not thoroughly sound in regard to two major items according to an analysis made public yesterday by the Merchants Association. The Merchants Association's report was sent to members of the Board of Estimate in a letter signed by Louis K. Comstock, president of the association.

After noting a reduction of 3,877 in the number of city jobs, the inclusion of more liberal allowances for equipment and repairs and a reduction of $8,918,440 in personal service items, the report said:

"Examination of the budget and of the Mayor's accompanying message reveals two important items which the association believes are not being treated in a thoroughly sound manner.

"The tax reserve required under the bankers' agreement of 1933 was reduced last Summer to $25,000,000 with the consent of the bankers by act of the Legislature. The Mayor states that this amount may be further prudently and safely reduced to $11,000,000 because of the marked improvement which has taken place during the current year in the collection of delinquent taxes, and he has included in the budget only $11,000,000 for this purpose.

Not Sound Policy.

"We congratulate the administration on the progress it has made toward reestablishing the city's credit upon a sound basis and we are thoroughly in accord with the Mayor's objective of a further reduction in the statutory reserve required by law. Sound financial policy, however, would dictate that this item be included to the amount of $25,000,000 as required by existing laws, rather than balancing the budget by including it at the lower figure upon the assumption that the bankers and a Legislature yet to be elected will assent to the Mayor's request for further amendment of the law.

"The Controller has estimated the General Fund revenues for next year at approximately $91,000,000. The Mayor's budget message, however, contains this statement: 'The total of the General Fund revenues, relying upon continuance of the public utility tax for another year, should amount to at least $102,000,000.' He is thus apparently including $11,000,000 from this source in his General Fund estimates. In this we believe the Mayor is not following sound policy.

The Merchants Association understands that this city has no authority at present to impose a public utilities tax in 1935 for other than relief purposes. In this respect also the association feels that it is not sound financial policy to balance the budget upon the assumption of action by a Legislature yet to be elected."

Pointing out that separate unemployment relief financing was putting a heavy burden on taxpayers, the report said that this made it more imperative than ever to reduce normal municipal expenditures. The association suggested the suspension of mandatory salary legislation so as to permit further cuts now.

Saving of $1,650,000 Seen.

"We believe that in the present economic emergency feeding the poor and relief from the crushing burden of taxation should take precedence over any increases in salaries for public employes however much such increases would be justified under ordinary conditions," the report added. "For this reason we specifically recommend that authority be obtained by the city, or exercised where it already exists, to suspend all annual increments of salary for municipal employes in the same manner as has been done in the State service. This alone, it is estimated, would save $1,650,000.

"The association recognizes that providing the full amount now called for by law under the tax reserve item and eliminating the estimated revenue of $11,000,000 from a public utility tax would require reductions of $25,000,000 elsewhere in the budget to bring it into balance, but it believes it would be far sounder to make such reductions now and to restore them, if desirable, after the Legislature grants authority for the desired changes than it would be to balance the budget on the basis of these assumptions and then possibly be faced with the necessity of again applying to the Legislature for authority to reopen the budget for further reductions after a portion of the next budget year had elapsed."

PROTEST BY ARCHITECTS.

Public Works Bureaucracy Ruining Their Practice, They Say.

Ralph Walker, president of the New York chapter of the American Institute of Architects, made public yesterday a letter sent to all candidates for Congress in New York State, in which he charged that the Treasury Department, in carrying out its public works program, was destroying the private practices of architects.

He said that architects were being forced to accept temporary employment, at a salary, in Washington, under a "bureaucratic regime," in violation of a "treasury Department promise that the design of all buildings costing over $60,000 would be entrusted to private architects.

A similar letter will be sent to Congressional candidates throughout the country by the sixty-seven chapters of the institute.

APPOINTED TO STUDY LABOR RELATIONS

Committee Named by Twentieth Century Fund to Draft Plan to Aid Government.

Trustees of the Twentieth Century Fund announced yesterday the appointment of a special committee of the fund in connection with an investigation of the role of government in labor relations which is already under way.

The committee, which will meet here soon to select a chairman, will advise with the Twentieth Century Fund's research staff, review the research reports and formulate, in the light of the findings and any other sources of information, a constructive program of action in dealing with this highly controversial issue.

The special committee includes: FRANK ATHELSTAN, president of Swarthmore College.
WILLIAM L. CHENERY, editor of Collier's Weekly.
WILLIAM H. DAVIS, attorney, formerly National Compliance Director of the NRA.
WILLIAM M. LEISERSON, chairman of the National Labor Relations Board.
ROBERT A. LOVETT, Professor of Sociology, University of Chicago.
SUMNER H. SLICHTER, Professor of Business Economics, Harvard University.

The committee will include as ex-officio members Henry S. Dennison, trustee of the Twentieth Century Fund and formerly chairman of the Industrial Advisory Board of the NRA, and Edwin Clark and Alfred L. Bernheim.

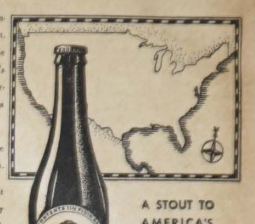
The trustees of the fund announced further the appointment of Mr. Bernheim, formerly director of the fund's investigation of security markets, as director of the study of the special committee which will be carried on under the general supervision of Mr. Clark, the fund's director, and Frederic Dewhurst, economist of the fund.

Relatives Die on Same Day.

Special to THE NEW YORK TIMES.

CINCINNATI, Oct. 14.—John Steman, retired contractor and builder, died at the home of his daughter here today at the age of 87. He was born in Germany and came to Cincinnati in his youth. His daughter-in-law, Mrs. Louis Steman, died two hours after Mr. Steman. Her age was 81. She had been active in a mothers' club, politics and the Red Cross.

Now
MORE AMERICANS ARE DRINKING STOUT
... and liking it



SINCE Mackeson's arrival more Americans are enjoying the delightful experience of drinking stout. They have found out that Mackeson's has none of the heavy, bitter taste they thought all stout had. Mackeson's is not bitter ... it's rich full body has a mellow, satisfying, pleasant tang. Taste it and you'll say "I had no idea a stout could be so delicious."

It is the product of nearly 200 years brewing experience ...try a nip and taste how palatable and invigorating it is.

Mackeson's is all that a stout should be—plus. Each pint contains the energizing lactose of 10 oz. of pure dairy milk. Yet its taste is stout ... *all stout*. It is more nutritious, strengthening and a healthful stimulant. Doctors and dietitians prescribe it ...but you'll drink Mackeson's *mainly* because you like it ...anytime, or as often as you would beer.

A STOUT TO AMERICA'S TASTE!

Mackeson's is brewed in England, in the good old way, from the finest British malt and hops, by Whitbread & Co. Ltd. Established 1742.

On Sale at leading stores including: GRISTEDE BROS. - FORTNUM & MASON - CHARLES & CO. - ROYAL SCARLET STORES

MACKESON'S *Milk* STOUT
